Hi, my name is

Mauricio Fernandez

I build solutions for the web.

I'm a software developer based in Buenos Aires, specializing in building and designing exceptional websites, things for the web, and everything in between.

01 . About me

Hello! I'm Mauricio, a software developer based in Buenos Aires, Argentina. I enjoy creating things that live on the internet, be it websites, apps, or anything else. My goal is always to create products that provide seamless performance experiences along with engaging user interfaces. Shortly after graduating from National Technological University(U.T.N), I joined the developers team at Request S.A where I work on a wide variety of interesting and meaningful projects on a daily basis. Here are a few technologies I've been working with recently:

JavaScript(ES5)

C++

Microsoft SQL

HTML & (S)CSS

C#

Java

02. what am i working on

Software Developer

January 2021 - Present

I am currently part of a team of developers (called puma) at Request S.A within which we customize a system called esker for LATAM clients. In my day to day I am in

- 01. Keep applications productive, fix bugs, and implement new
- 02. Comply with deliveries according to the time estimates made.
- 03. Work closely with other developers.

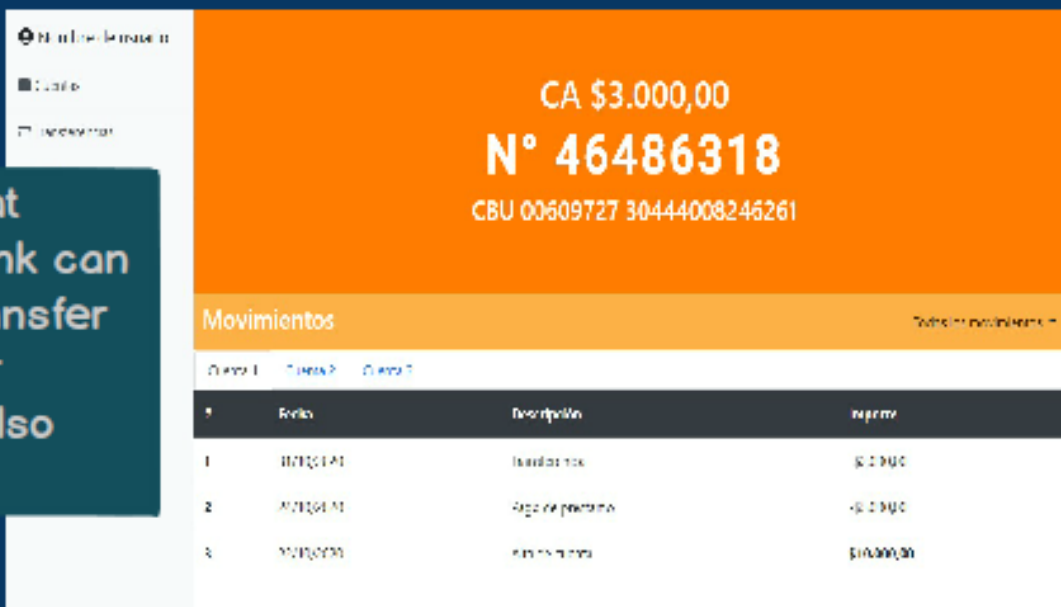

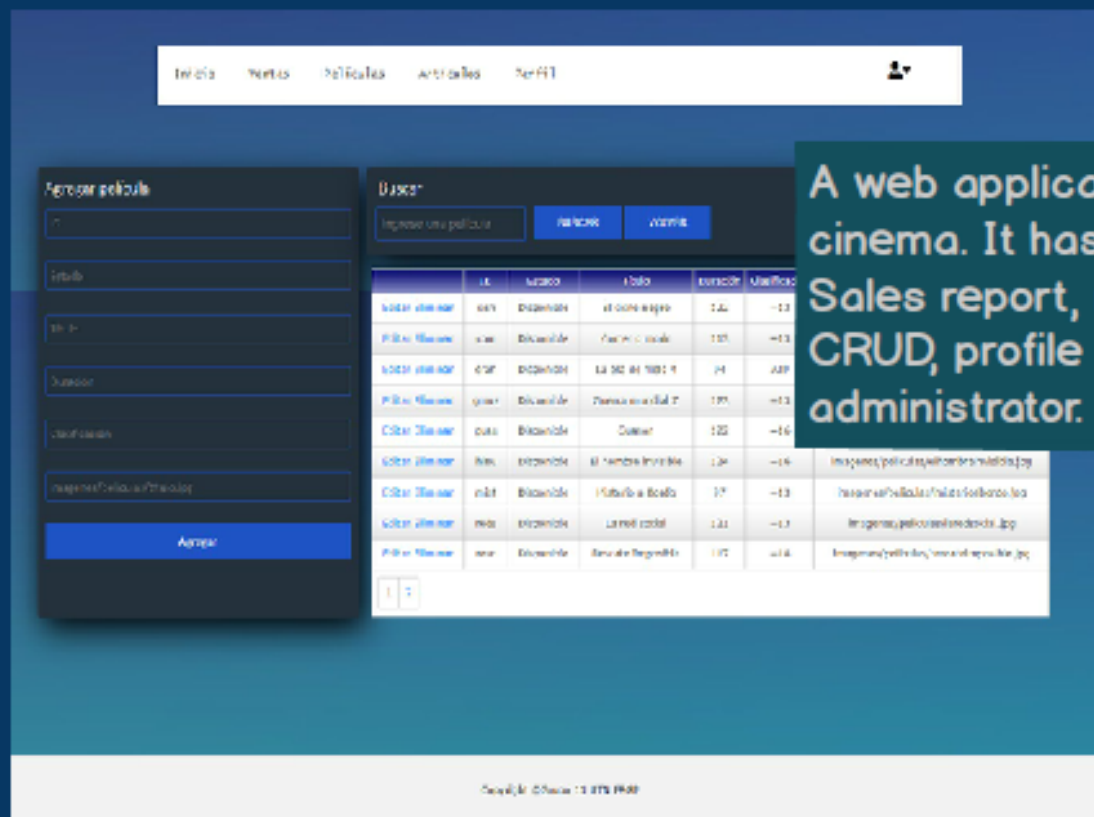

03. Some Things I've Built

Web platform for bank users

A web platform so that users of a certain bank can see their account, transfer money to their own or others, request and also pay loans.

Web app to manage a cinema

A web application to manage a cinema. It has the following modules: Sales report, movie CRUD, article CRUD, profile of the logged in administrator.

04. What's Next?
